BACKGROUND:

Planning staff is requesting modifications to the Seminole County Land Development Code which include amendments recommended by the Municipal Code Corporation and other County staff. The amendments are minor in nature and are being requested to correct obvious errors, clarify interpretations, and eliminate duplicate information to various sections of the Land Development Code and Seminole County Code. Simultaneously, staff is recommending that the swimming pool regulations located in the Seminole County Code be moved to the Land Development Code.

A matrix explaining the changes is attached. Please note that certain sections of the Land Development Code pertaining to adult entertainment are being deleted because they are duplicated in the Seminole County Code. We do not propose to delete or change the Adult Entertainment Ordinance in any way or form as it currently exists.

The board of adjustment may also grant a special exception to allow a bona

bona fide restaurant, located within one thousand (1,000) feet of a church or school, to serve alcoholic beverages with meals. Said special exception may only be granted in those zoning classifications that allow alcoholic beverage establishments as conditional use. The following provisions apply to the action of the board of adjustment:

(B)(3) Landscaping and buffer requirements Active/passive buffer setback standards (section 30.1232) shall be applied to on-premise consumption alcoholic beverage establishments. (A) Churches. No closer than one thousand (1,000) feet measured along the shortest possible line lying entirely within public rights-of-way, such measurement being between the nearest entrance to the alcoholic beverage establishment and the nearest point on the plot occupied by the church.

Sec. 30.1356. Group homes and assisted ~~adult-congregate~~ living facilities.

(a) Statement of intent.

(1) In order to prevent concentration of foster care and group home facilities and the detrimental ~~impaction to~~ of a neighborhood caused by a high concentration of these facilities, the Board of Adjustment shall exercise care in

considering a request to establish a foster care or group home facility by determining that the approval of the new facility or additions to an existing facilities, when ~~added to~~ considered in light of the number of other such facilities licensed by the state (excluding foster homes) in the vicinity of the proposed site will not stress the limited capacity of a neighborhood's existing social structure to accommodate foster care and group home facilities. A second intention of this provision is to protect existing foster care and group home facilities from the possibility that an over concentration of such facilities in a neighborhood might develop which may inadvertently recreate an institutional setting. Such a setting is an impediment to the successful functioning of foster care and group home facilities.

(2) To help fulfill this intent the applicant is required to provide a list of the location of all group care facilities indicating the number of clients at each facility. The list is to be certified by the State department licensing such facilities ~~of health and rehabilitative services~~.

(b) Standards. Group homes and assisted ~~adult-congregate~~ living facilities may be approved by the Board of Adjustment as a special exception ~~conditional use~~, providing, in addition to all other required findings:

(1) In single- and two-family residential districts (including ~~A-G~~, A-I and RC-I), the Board of Adjustment shall determine that the proposed structure (facility) is compatible with the neighborhood in its physical size.

(2) In multiple-family residential districts, the Board of Adjustment shall determine that the proposed use is compatible with the area in its intensity of land use. Persons per acre (PPA) may be used as a guide establishing equivalency with density

which is typically specified as dwelling units per acre (DUPA). Based on the person-per-household factor for multiple-family residences in Seminole County, the persons per acre for R-3A is 27 and for R-3 is 27.

3) A copy of the application to the appropriate State agency ~~Department of Health and Rehabilitative Services~~ shall accompany the application for the special exception ~~conditional use~~.

Section 56. FAMILY DAY CARE HOMES. Section 30.356 of the Land Development Code is created to read:

Sec. 30.1356.1 Family day care homes. In accordance with Section 25.09 Florida Statutes (2001-1999), the operation of a residence as a family day care home provided that same is registered and licensed by the Department of Child and Family Services is residential use and is permitted in any zoning district classification where residential uses are permitted.

Section 57. CO-LOCATION OF COMMUNICATION TOWER ANTENNAS. Section 30.368 of the Land Development Code is amended to read as follows:

Sec. 30.1368. Co-location of communication tower antennas.

General policy relating to co-location. To minimize adverse visual impacts associated with the proliferation and clustering of communication towers, co-location of communication antennas by more than one carrier on existing or new communication towers is encouraged. Additional communication antennas proposed on existing Communication Towers are permitted uses and may co-locate onto existing communication towers if they satisfy the requirements of this section and no special exception is required.

(b) Procedure for administrative granting of special exceptions. If co-location requires utilization of real property for construction of ancillary facilities such as equipment rooms, which uses were not permitted under the applicable zoning code and which uses are expressly prohibited by prior special exceptions, then such ancillary facilities such as equipment rooms shall not be deemed a permitted use as a matter of right under this section unless and until a special exception is issued pursuant to the provisions of this subsection.

The ~~Current~~ Planning Manager, after consultation with the applicant, shall determine in conjunction with the Planning and Development Director, consistent with sound and generally accepted planning and land use principles, whether co-location of ancillary equipment, such as equipment room, in support of co-located communication antennae are appropriate and meet the criteria of this Section.

(2) Upon a determination that the co-location of ancillary facilities including equipment rooms, are appropriate for a parcel, the ~~Current~~ Planning Manager shall cause a "Notice of Intent to Allow Co-Location of Communication Tower Ancillary Facilities, Including Equipment Rooms" to be published in a newspaper of general circulation. The Notice shall, at a minimum, state the address of the real property and the proposed use. The Notice shall further state that any person objecting to the use of the property as described must file a notice of objection with the ~~Current~~ Planning Division within ~~thirty (30)~~ fifteen (15) days of the publication.

Upon a determination that co-location of Communication Tower ancillary facilities (including equipment rooms) is not appropriate for the subject property, the applicant may appeal said decision the Board of County Commissioners

by filing a notice of appeal with the ~~Current~~ Planning Division within ~~thirty (30)~~ fifteen (15) days of the rendering of the decision. The ~~Current~~ Planning Division shall schedule the appeal before the Board. The Board may approve or deny the co-location.

(4) If the ~~Current~~ Planning Division receives no objections to the Notice, in his or her sole discretion, then the ~~Current~~ Planning Manager shall allow the co-location of Communication Tower ancillary structures (including equipment rooms) as proposed.

(5) The Planning and Development Director shall issue a development order or denial development order consistent with the determination made under this Section.

(c) Type of construction. A communication tower which is modified or reconstructed to accommodate the co-location of an additional communication antenna shall be of the same tower type or a lesser impact tower type, as determined by the ~~current~~ pPlanning ~~m~~Manager based upon the intent of Sections 30.1362 through 30.1370 and sound and generally acceptable planning practices and principles, as the existing communication tower.

(d) Height. An existing communication tower may be modified or rebuilt to a taller height, not to exceed twenty (20) feet over the tower's existing height, to accommodate the co-location of an additional communication antenna. Such a height increase may only occur one (1) time per communication tower and may be allowed for those sites, which obtained previous special exception approval. The additional height authorized herein shall not require an additional distance separation as described in

Table 1, Section 30.1364. The communication tower's pre-modification height shall be used to calculate such distance separations.

(e) Site location. A communication tower which is being rebuilt to accommodate the co-location of an additional communication antenna may be moved on the site to an area located within fifty (50) feet of its existing location and may also be relocated, with the approval of the ~~current~~ planning ~~m~~anager based upon sound planning and land use principles and upon a finding that such approval would be consistent with and further the intent of this Code, in the same manner on a site which received a previous special exception notwithstanding any condition of approval relating to the grant of the special exception. After a communication tower is rebuilt to accommodate co-location, only one (1) tower may remain on the site. A communication tower relocated on a site shall continue to be measured from the original tower location for purposes of calculating separation distances between communication towers. A communication tower which has been relocated on a site and which intrudes into the separation distances required with regard to property described in Table 1, section 30.1364, shall only be permitted when written consent as set forth in a recordable instrument is obtained from all property owners within the applicable separation distance.

(f) Filing of a master plan. To enhance the county's ability to promote the co-location of communication towers, any communication company that owns or operates a communication tower in the county or intends to install a communication tower in the county shall file with the ~~current~~ planning ~~d~~ivision a master plan indicating the site of all existing communication towers, any and all proposed communication tower sites and

a statement describing the anticipated communication tower needs over the next ten (10) years; provided, however, that disclosure of marketing strategies, trade secrets, commercially privileged information or any other information that the provider deems would adversely effect his, her or its ability to compete is not required to be disclosed and the determination of the communication company shall be conclusive. The master plan shall be filed on or before January 1 of each year. The master plan is not binding. Its primary purpose is to serve as a mechanism of coordinating co-location of communication towers between persons and entities involved in that industry.

~~Sec. 30.1376. Annual report.~~

~~(a) The county manager, or his or her designee, shall issue a report to the board of county commissioners on or before December 31, of each year, beginning in 1997, relating to the status of communication towers in the county, anticipated developments in the telecommunications industry, projected issues to be faced by the county and conceptual county programs and policies to address the challenges that are likely to be faced by the county relative to the matters addressed in this part.~~

~~(b) To enhance the county's ability to promote the co-location of communication towers and to address other land use issues relative to communication towers, each communication company that owns or operates a communication tower in the county or intends to install a communication tower in the county shall designate a representative to meet with the current planning division at least annually to discuss and evaluate the issues relating to the siting and other planning issues relating to communication towers as well as technological developments in the communications field.~~

Sec. 30.1377. Home Office. A home office may be used only by immediate family members actually living on a full time basis at the residence in which the office is located. Sec. 30.1377. Required submittals checklist. ~~The current planning manager shall develop and widely distribute a checklist for applicants for approvals for the placement of communications towers which checklist shall contain, at a minimum, all of the required submittals and information necessary to make application for approval of a communications tower.~~

provided that are consistent with and safeguard the public health, safety, morals and welfare. Any use exceeding a temporary use shall subject the property to all provisions of this Code including, but not limited to, site plan approval, impact fee assessment, master plan approval, and any and all other approvals required by this Code.
